Report of the Chemist of the Department of Agriculture on Sugar Culture.

A Court of Inquiry to be Ordered-Only One Cabinet Officer Left In Washington.

Sugar.
WASHINGTON, Aug 7-Dr Wiley,
Chemist of the United States Department of Agriculture, has just placed in the bands of the Secretary of Agriculture for publication the toports of experiments in the man ifacture of sugar by diffusion ist Magnolia Station, Lawrence, La, on the plantation of Ex-Rovernor E. C Warmonth. The reports were prepared by Guilford L Spencer, one of Dr Wiley's assistants, who was detailed to perform the chemical work at connection with the manufacture of sugar by diffusion on

The report faciles numerous hindrances and difficulties (the principal ones due to dotecle in the Gurman cuttor in uso) and offers some practical suggestions for improvements in the machinery used in the diffusion process. In spite, however, of the difficulties referred to in the work at the Magnolia plantation, and which compiled the manufacture of 1,555,230 pounds of sugar, the compatison between the mill work and the diffusion process was in favor of the latter by a yield of 511 pounds of sugar to the ten of cano, the diffusion average boing 222 pounds, and that of the mill 1679 pounds; moreover the latter included several tone treated by the diffusion process, but so involved with the mill work that the chemist In charge found it necessary to call and include it all in mill work, making the difference in favor of the diffusion process oven more marked than these figures indicate. In connecwere adopted August 1st by the members | then with this work it may be stated as a result of the work of the Department of Agriculture during the past four or five of the African M. I. church, of which the late John Wesley Howard was a years, that the improvement in methods and the application of chemical control to the sugar factories, notably the extension of the diffusion process, has already resulted in raising the highest average of

the cattle conting over their conds at convenient points where they may be inspected the more thereaghly. It is the intention of the Agricultural Impartment to do all in its power to prevent the exportation of diseased callle. Di Salmon, thief of the Buroan of Annual Industry in the Agricultural De-

partment, will also be present at the meeting A Court of Inquiry to be Hold. THE 1889 REUNION.

Decatur Will Have the Mexican War Veterans in September.

It is quite probable that the 1889 re union of the Illinois Association of Mexcuan War Veterans will be held in Deca tur, on Sept 11 and 11, the latter date being the 42d anniversary of the fall of the City of Mexico and the end of the war Capt. J. W Hartley, secretary of the state Association, is in correspondence with other state officers, who snggost that the September reunion be held at some other place than Springfield, where the trun connections are so unsatisfactory The Captain will doubtless call the reumon for Decatur, as the duty of making the change and naming the place rests largely with him There were only about 50 veterans at the last neeting held in Springfield It held in Decatur, the veterans will flock here in large numbers and because of the excellent railroad facilities the visitors can re turn home in very direction Saturday afternoon and Sunday morning-train running to Chicago, Quincy, St Louis Cano, Terre Haute, Toledo, Peoria Bloomington, Effingham, Champaign and to intervening points. It is expected that inglin Macon county. The gates of the city will be thrown open to them and they can have easy transportation from the Union depot to the business centre on

the electric railway cars Secretary Hartley will extend special invitations in the name of the association to L'x Gov Oglesby, who was a heuton ant in the Moxican war and was at the buttle of Cerio Gordo, to Gen. George Morgan, of Mt Vernon, Olno, Gon James W. Denver, of Wilmington, Ohio, president of the National Association, Gen Mattlen D Manson, of Crawfordsville, Ind., Gen. Saml L. McFaiden, of Logansport, Ind., and Gen. McGimns, of Indianapolis

There is no botter point in the state or association meetings than Decatur The accommodations are firstelass, the city centrally located and the running of times entirely satisfactory.

THE WIFE'S WARRING.
"The idea began to launt me when that bream had come back for the third time, though I never said a word; but one mening my wife seemed uneasy till all our farm hands had started to work, and then asked me to come out in the garden for a minute.

" On you think there are any robber n this neighborhood? she raked me when we were quite alone.

"Why, did you see or hear anything supprious? I usked her back.

No, but I had such a strunge dream last night, said she, with a sort of a shudder. If dreams a gang of Mexicans camo to our house and made me run for my life, and just before I got through the door I saw them knock down little tommy with a club."

"Didn't I help you?" I haughed.
"'Hon't know,' she said. 'I saw you collar one of them, and I kept calling for you in Eaglish to save yourself, but just no you dashed through the gate 1 peard the grack of a shotgun and then I

He had conceived an idea for a great classical picture, and he hired a stalwart gentleman of toil to pose for the musen lar figure required for the center of the picture. He painted for days and days, and he thought whonever he had his model before him that he had never see

such rich flesh tints before. And he studied those flesh tints and worked ti he had got them porfect. Then he called his brother actists in and showed ther the picture. Those fiesh tints don't seem quit right. Where did you get them?"

"They rich, aren't they? But they'r rom nature. They're from my model.
"Well, they don't look quite natural. The last touches had to be given and the model had come to pose for the last time. When he stripped his torse and took his position the painter stared aghast. The brilliant fiesh tints had vanished and he was a plain, ordinary Resh colored individual.

An old vag, who has been in the babit of calling on a certain business man on Criswold street for dimes, was usked the other day how much he would take to keep away for all future time. He thought for a moment and then replied: "Give me fifty cents and I'll nover bother you again.'

"I'll do it. Here—let me draw up a writing to that effect." An agreement was drawn up and the vag read it over and laid it down with the remark:

"I can't do it. There's something cold blooded about that. "But you agreed to." "Yes, I know; but think of a man

selling his manhood for fifty cents! I'd starve first!" "Well, how much do you want?" "A dollar."

"I'll split the difference with you."

"Well, I'll sign, but I want a proviso userfed that I do not hereby lose my self respect, and that I do not forfeit the right to come up stairs and strike the men in the next room if I get hard up-It was added, and he signed and went off to strike a free lunch counter, -Detroit Free Press.

Among exclanations in common use Hallool and "Hurrah!" have enrious origins attributed to them. It is said by the author of the "Queen's English" that the people of Carnwood forest, Loices tershire, when they desire to hall a per son at a distance call out not "halloo! but "halloup!" This he imagines is a survival of the times when one cried to another: "A loup! a loup!" or as we would now say: "Wolf! wolf!" "Hurrah!" again, according to M. Littre, is derived from the Slavonie huraj, "to Paradise," which signifies that all soldiers who fell fighting valiantly went straight to heaven. "Prithee" is obviously a corruption of "I pray theo;" while "marry" was originally a method of swearing by the Virgin Mary. -All
